Section 2: To be completed by Physician

Drug Name & Strength:	DIN:	Dosage Instructions:
-----------------------	------	----------------------

Eligibility for drug coverage is dependent upon the patient meeting at least one of the qualifying criteria listed below. If the patient has another drug plan, prior authorization may cover some or all of the excess not paid by the primary plan.

Please indicate if the patient meets the following qualifying criteria for drug coverage:

- Treatment of primary pulmonary arterial hypertension (PPH) or pulmonary hypertension secondary to connective tissue disease (CTD) in adult patients with WHO functional class II or III who have not responded to conventional therapy. In addition, improvement in exercise ability and delay in clinical worsening was demonstrated in adult patients who were already stabilised on background epoprostenol therapy.
- Revatio solution for injection is indicated for the continued treatment of patients with pulmonary arterial hypertension (PAH) who are currently prescribed oral Revatio and who are temporarily unable to take oral medication
