Signature of Patient/ Legal Guardian: _____ Date (dd/mm/yy):_____

Section 2: To be completed by Physician

Drug Name & Strength: **Erelzi**	DIN: 02462850 02462869 02462877	Dosage Instructions:

Eligibility for drug coverage is dependent upon the patient meeting at least one of the qualifying criteria listed below. If the patient has another drug plan, prior authorization may cover some or all of the excess not paid by the primary plan.

Please indicate if the patient meets one of the following qualifying criteria for drug coverage:

□ Treatment of moderately to severely active rheumatoid arthritis in adults. Treatment is effective in reducing the signs and symptoms of RA, inducing major clinical response, inhibiting the progression of structural damage, and improving physical function. Erelzi can be initiated in combination with methotrexate (MTX) in adult patients or used alone.

□ Reducing signs and symptoms of moderately to severely active polyarticular juvenile idiopathic arthritis (JIA) in patients aged 4 to 17 years who have had an inadequate response to one or more disease-modifying antirheumatic drugs (DMARDs). Erelzi has not been studied in children less than 4 years of age.

□ Reducing signs and symptoms of active ankylosing spondylitis.
