Section 2: To be completed by Physician

Drug Name & Strength:	DIN:02455102 02455110	Dosage Instructions:
-----------------------	--------------------------	----------------------

Eligibility for drug coverage is dependent upon the patient meeting at least one of the qualifying criteria listed below. If the patient has another drug plan, prior authorization may cover some or all of the excess not paid by the primary plan.

Please indicate if the patient meets the following qualifying criteria for drug coverage:

- Taltz is indicated for the treatment of moderate to severe plaque psoriasis in adult patients who are candidates for systemic therapy or phototherapy.
- Taltz is indicated for the treatment of adult patients with active psoriatic arthritis when the response to previous disease-modifying anti-rheumatic drug (DMARD) therapy has been inadequate. Taltz can be used alone or in combination with methotrexate.
